

Wed 17 Jan 2018 1200 UTC

A weather map of Europe and the North Atlantic region. The map features blue isobars representing pressure systems, with a low-pressure system centered over the North Atlantic and a high-pressure system over the British Isles. Wind vectors are shown as red and green arrows, indicating wind direction and speed. Cloud cover is depicted with brown shading, showing a band of clouds extending from the North Atlantic towards the Iberian Peninsula. The map also includes the outlines of the continents and islands in the region.

Thu 18 Jan 2018 0600 UTC

A weather map of Europe and the North Atlantic region. The map features blue isobars representing pressure systems, with a low-pressure system centered over the British Isles and a high-pressure system over the Azores. Wind vectors are shown as red and green arrows, indicating wind direction and speed. Cloud cover is depicted with various colored symbols (red, green, blue) scattered across the map. Landmasses are shown in brown, and snow-covered areas are in white.

Fri 19 Jan 2018 0600 UTC

A weather map of Europe and the North Atlantic region. The map features blue isobars representing pressure systems, with a low-pressure system centered over the British Isles and a high-pressure system over the North Atlantic. Wind vectors are shown as small arrows with color-coded shafts (red, green, blue, purple) indicating wind speed and direction. Cloud cover is depicted as white areas, primarily over the British Isles and parts of the North Atlantic. Landmasses are shown in brown, and the sea level is white.

Sat 20 Jan 2018 0600 UTC

A weather map of the North Atlantic region, including parts of North America, Europe, and Greenland. The map features blue isobars, wind vectors represented by red and green arrows, and cloud cover indicated by blue and green shading. A white box in the top left corner contains the date and time. The text 'Issued 17-Jan-2018 12:08' is visible in the bottom left corner.

Issued 17-Jan-2018 12:08

Sun 21 Jan 2018 0600 UTC

A weather map of Europe and the North Atlantic region. The map features blue isobars representing pressure systems. A prominent low-pressure system is located over the North Atlantic, with isobars curving around it. Another low-pressure system is visible over the British Isles. High-pressure systems are shown over the Mediterranean and the Arctic regions. Wind vectors are represented by small arrows, with red arrows indicating wind direction and speed. The map also shows the outlines of Europe, Africa, and the Arctic region. The text 'Sun 21 Jan 2018 0600 UTC' is displayed in a blue box at the top left, and 'Issued 17-Jan-2018 12:08' is displayed in the bottom left corner.

Issued 17-Jan-2018 12:08

Mon 22 Jan 2018 0600 UTC

A weather map of Europe and the North Atlantic region. The map features a low-pressure system (cyclone) centered over the North Atlantic, with concentric isobars and wind vectors indicating a clockwise and inward flow. A high-pressure system is located over the British Isles, with isobars radiating outwards. The map includes contour lines, wind vectors, and cloud cover indicators. The landmasses are shaded in brown, and the sea level is white.

Issued 17-Jan-2018 12:08

Tue 23 Jan 2018 0600 UTC

A weather map of the North Atlantic region, including parts of North America, the British Isles, and Iceland. The map features blue isobars representing pressure systems, with a prominent low-pressure system centered over the western North Atlantic. Wind vectors are shown as small arrows in red, green, and purple, indicating wind direction and speed. Landmasses are shaded in brown, and snow-covered areas are shown in white. The map is overlaid with a grid of latitude and longitude lines.
