

**Mon 16 Jul 2018 0000 UTC**

A weather map of Europe and the North Atlantic region. The map features a low pressure system (cyclone) centered over the British Isles, indicated by concentric blue contour lines. The surrounding areas show various pressure contours and wind vectors represented by small green and red arrows. The landmasses are shaded in brown, and the sea level is white.

**Mon 16 Jul 2018 1800 UTC**

A weather map of Europe and the Atlantic region. The map features brown landmasses and white oceans. Blue lines represent isobars, showing a low-pressure system over the Atlantic and a high-pressure system over the British Isles. Green arrows indicate wind vectors, showing a flow from the high to the low. A white box with a blue border in the top left contains the date and time. In the bottom left, there is a text label indicating the issue time.

**Sat 21 Jul 2018 1800 UTC**

A weather map of Europe and the Atlantic Ocean. The map features brown landmasses and white oceans. Blue lines represent isobars, showing a low-pressure system over the Atlantic and a high-pressure system over Europe. Green arrows indicate wind vectors, generally blowing from the southwest. A white box with a blue border in the top left contains the date and time. In the bottom left, there is a timestamp.

Issued 16-Jul-2018 01:06

**Sun 22 Jul 2018 1800 UTC**

A weather map of Europe and the North Atlantic region. The map features blue isobars representing pressure systems, with a low-pressure system centered over the North Atlantic and a high-pressure system over the British Isles. Green arrows indicate wind direction and speed. The landmasses are shaded in brown, and snow-covered areas are shown in white. The map is overlaid with a grid of latitude and longitude lines.
